Response Village-Wide

Operational Performance Measure:

To measure the Response Times of first arriving unit according to NFPA 1710. The standard also requires the arrival of an Effective Fire Force (EFF). At this time we are only tracking the arrival of the first fire or EMS unit and not the EFF.

GFD Strategic Priorities:

Provide Quality Emergency Services

Performance Target:

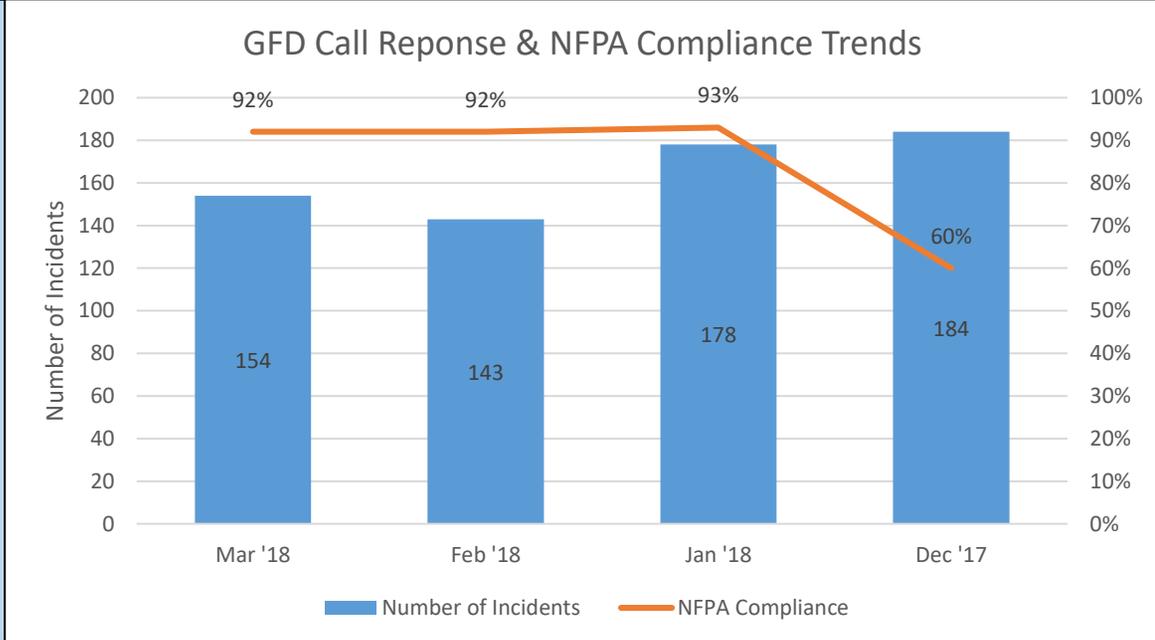

Arrival of crews within 8 minutes according to NFPA 1710 standard, and within 5:20 minutes per ISO Guidelines. (NFPA standard is 90%)

Current Report Period: **March 2018**

Data Source: ProPhoenix Software

Rolling 4 Month Activity:

Reporting Period	Number of Incidents	NFPA Compliance
Mar '18	154	92%
Feb '18	143	92%
Jan '18	178	93%
Dec '17	184	60%

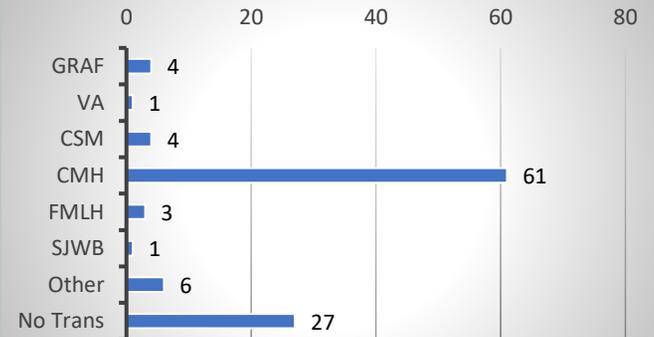

Analysis:

The GFD is exceeding response time goals per the NFPA the majority of the time. We have examined the December trend and determined the issue for underperformance was due to ProPhoenix software issues. This has been addressed with ProPhoenix.

Goals:

Increase towards compliance in comparison to previous months.

March Hospital Transports = 107

Community Risk Reduction

Operational Performance Measure:

Efficient Deployment of resources to support Community Risk Reduction initiatives.

GFD Strategic Priorities:

Provide Quality Emergency Services

Performance Target:

Risks in the community are minimized through a proactive Community Risk Reduction system.

Current Report Period: **March 2018**

Rolling 4 Month Activity:

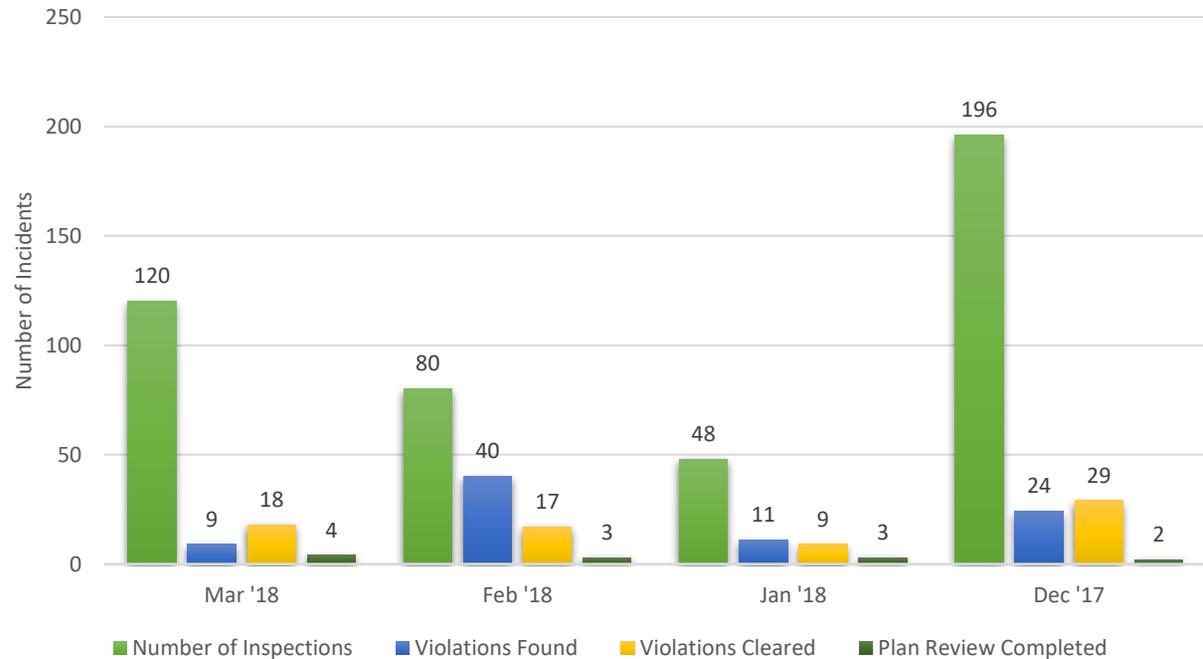

Reporting Period	#Inspections	#Cleared
Mar '18	120	18
Feb '18	80	17
Jan '18	48	9
Dec '17	196	29

Analysis:

On average, we will need to complete 732 inspections every 6 months. Between the Fire Inspector and the On-Duty fire crew we are on track to meet that goal.

Due to emergency calls, completion of inspections in some months will be less but in the end we will meet our goal.
